

## ATLANTIC INJECTION MACHINE

### AIM 5000

Atlantic Injection Machine AIM 5000 is a high-pressure single injector designed to apply urethane resin and epoxy injection materials into crevices, cracks and voids. The electric machine is compact in design, user-friendly and easy to service and maintain.

The AIM 5000 is an extremely lightweight and powerful injection pump. Its high discharge pressure makes it versatile for use in crack injection and concrete reinforcement works while working with most polyurethane and epoxy injection products having viscosities between 50 and 25,000 cps.
