

ATLANTIC CONCRETE PLACING BOOM

APB

Featuring a compact structure, the Atlantic Concrete Placing Boom can be lifted and transferred to any suitable place for concrete placement, such as floors, platforms, simply-structured racks or even trailers.

It can be lifted off the placement sites when it is not needed, which leads to no disturbance to other jobs and easy maintenance.

These booms are well suitable for the construction of different floors and for complicated jobsites without being influenced by the size and shape of floors.

APB - Key Features:

- ✓ Compact structure and highly flexible.
- ✓ 3 arms with 360° degree swing.
- ✓ Wireless remote results in easy operation.
- ✓ Modular design of components for quick installation and easy maintenance.

* Robotic Spray Arm * Shotcrete Arm * Tunnel Shotcrete Pump * Wet Shotcrete * Concrete Spray Arm *
